INFORMATION ON THE COVID-19 VACCINES:

(I have attached links to articles that are fundamental to understanding the effects of the COVID-19 vaccines yet receive little press. Often highly qualified professionals who speak out are vilified or even decertified. Here is the information so you can decide for yourself.)

DOCTORS SPEAK OUT:

Dr. Peter Doshi, British Medical Journal Sr. Editor, Speaks up about the dangers of the COVID vaccines:

<https://palexander.substack.com/p/british-medical-journals-editor-dr>

Excerpt from the article –

“The analysis showed that mRNA vaccines were associated with 1 additional serious adverse event for every 800 people vaccinated. This would normally have a vaccine taken off the market and is in sharp contrast to the idea that serious adverse events are extremely rare as federal health regulatory agencies have commonly claimed with regards to COVID-19 vaccines. The authors also

found that the trial data showed that the increase in serious adverse events following mRNA vaccination surpassed the reduction in risk of ending up hospitalized with COVID-19.'"

A CLOSER LOOK AT MASKS AND MASK STUDIES:

Just Facts - [Everything You Always Wanted to Know About Masks](#)

This article is probably the most extensive and scientific study on masks ever done. It represents more than 500 hours of research. These [thoroughly vetted](#) facts will take more than an hour for most people to read, but even the first few paragraphs gives you information to consider.

Just Facts - [Famed Bangladesh Mask Study Excluded Crucial Data](#)

The Bangladesh study has been promoted as ultimate proof that masks are effective in stopping the spread of the virus. Except when those claims were made, the authors only released a portion of the data. The remaining information leads to a much different conclusion. Sadly, the media and federal agencies rarely mentioned the updated information.

CDC – [Study Promoting Masks Makes Claims Not in the Study](#)

This study released in Feb 2022 claims masks reduce the odds of testing positive for COVID. In the fine print they admit the results are statistically insignificant. In other portions of the study the authors show a significant reduction in infection but fail to link it to the wearing of masks as many other environmental events may have contributed to the reduction.

The Cochrane Study – [The Cochrane Mask Study](#)

The prestigious Cochrane Review is one of the most respected libraries of medical data in the world. This study reviewed more than 276,000 participants in Randomized Control Trials and found masking does nothing to reduce the spread of influenza-like, or COVID-like illnesses, and no reduction in confirmed flu or COVID.

Interview with the Lead Author of the Cochrane Study – [Interview](#)

Tom Jefferson is a senior associate tutor at Oxford University and the Cochrane Study's lead author. Here he gives a rare interview that reveals more about the study including the concept of “layering” to ward off the virus.

THE 2022/23 FLU PANDEMIC ISSUE:

The 22-23 Flu Season - [How Worried Should We Be about the New Flu Season?](#)

The CDC and the press are announcing that we are in the midst of a “flu emergency” unfolding in the USA right now. The CDC is calling for people to take the flu vaccine. Should we be worried? You may not know, last year, in time for the 22-23 flu season, the CDC changed the definition of Influenza-Like Illness leading to double-counting. (ILI)

WHY MORE DOCTORS DON'T TELL THE FULL TRUTH ABOUT VACCINES:

It may be hard for many to believe, but physicians, surgeons, statisticians, researchers who expose information that runs counter to the CDC's COVID and vaccine narrative face severe reprisals. In many cases some of the world's leading doctors and other experts are threatened with loss of board certifications and licenses to practice. Here are some articles explaining how this happens.

Is There Any Real Evidence of 2020 and 2022 Voter Fraud:

Investigator's Report to the Arizona State Legislature – [Senate Election Oversight Meeting](#)

Arizona forensic investigator Jacqueline Breger exposes racketeering and fraud in more than 20 states including Arizona's Maricopa County. Her team discovered 25,000 falsified ballots at a home traced to Donna Chavez whose daughter applied for whistleblower protection. In addition, 100,000 ballots and \$13 million in cash were found in 2 rental cars. At one point, an official, who is among the accused, hurriedly leaves the room. Go to 4:03 in the video for her testimony.

Explosive Testimony at Senate Elections – [Article Covering the Breger Testimony](#)

The Arizona Legislature's Senate Elections Committee and House Municipal Oversight & Elections Committee held a joint hearing on Thursday featuring testimony from several people involved in researching the voter disenfranchisement that occurred in 2020 and 2022.

Climate Change:

CO2 Coalition – [CO2Coalition.org](#)

Formed in 2015, the CO2 Coalition uses the traditional scientific method of empirical, measurable, and objective facts to test and replicate hypotheses. A good source for independent thinkers who choose to use science rather than politics to make decisions involving the climate and sustainability.

Net Zero Watch – [NetZeroWatch.com](#)

This group analyzes global climate change policies, their real costs, and their effect on consumers. They operate under The Global Warming Policy and accept no donations from energy companies.
